Every now and then I like to get a little sentimental and write a really personal blog about myself (hey, I'm allowed to, right? I think that's what blogging is all about anyway!)

These personal travel blogs are usually about me, my plans, my thoughts, my feelings. Anything and everything that's going on in my mind. I really want to inspire you to do something different on your travels, to see the world in a different light – hopefully after reading a few of these personal travel blogs it'll give you the desire to do something new and exciting.

With that in mind, here are a couple of my favourite travel blogs. Going back to the beginning of things, this is why I am completely addicted to travelling, and a bit of a cheeky one for you but this is the 5 times while travelling. Enjoy
